BIG PROGRAM IS READY FOR FIRST LEAGUE MEETING

Council of League Will
Meet In Rome On
April 27.

METHOD OF FINANCING BODY ONE OF MATTERS FOR ACTION

Reputation of German and
Austrian Prisoners Will
Come Up.

Washington, April 2.—A full and important program will confront the council of the League of Nations when it assembles in Rome, April 27. Included in the matters scheduled to be discussed, it was learned here today are such questions as the approval of the temporary organization already effected of the secretariat of the league; the method of financing that body and its accounting; regulation of admission of new states; repatriation of German and Austrian prisoners of war in Siberia; traffic in women and children; disposition of the work of the Washington labor conference; acceptance of rules of procedure; and the work of the commission which is to draw plans for the organization of the international supreme court.

TURKS MAY ATTEND NEXT PEACE SESSION

Paris, April 2.—In French circles the expectation now is that the meeting of the supreme council of the peace conference in San Remo will be called for April 19 to 22. The Turkish peace delegates, it is understood, will be invited to present themselves toward the end of April to receive the peace terms. It is pointed out here that the terms of the projected treaty with regard to a number of points were prepared by experts in the absence of the heads of some of the allied governments. Preliminary matters of procedure, Italy having attended only the first sessions of the conference in London. Hence it will be necessary that a full session of the supreme council go over the whole project.

AMERICAN ARMY ON RHINE WORKS WITH FOCH

Paris, April 2.—President Wilson's statement to the house of representatives in Washington yesterday that Marshal Foch has no authority over the American troops on the Rhine, was not called here in full.

The French force therefore is not as yet acquainted with its exact terms, but was said in official circles that President Wilson's conception of the status of the American troops appeared to be the same as the French official view, namely that the troops were in the occupied area under the armistice terms as the American senate had not ratified the peace treaty.

Thus far, it was explained at the foreign office the commander of the American force of occupation has acted in harmony with the orders given by Marshal Foch to the other occupying troops. Major General Allen of the American forces simply taking over for his own account the orders issued by the marshal just as the American representative with the Rhine commission acts in harmony with the French head of the commission, although technically not under his authority.

COLLEGE ASSOCIATION HOLDS 49TH MEETING

Columbus, April 2.—The 49th annual meeting of the Ohio College Association opened this morning at Ohio State University.

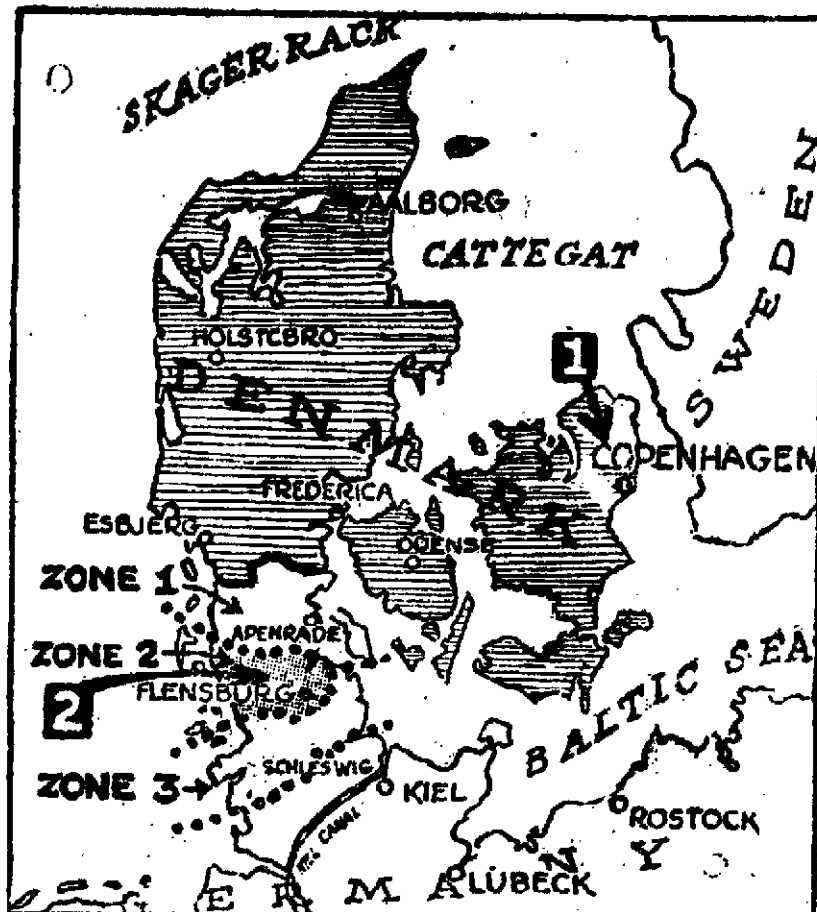

This morning's program included an address on "America's present task," by Henry C. King, president of Oberlin college, two other addresses by Professor W. W. Charters of Carnegie Tech and President W. W. Clippinger of Oberlin University, and nine committee reports. Departmental meetings were on this afternoon's program. Meetings will continue through tomorrow.

PLUMBERS ON STRIKE.

DENMARK IN FERMENT; MAY BE REPUBLIC; CRISIS FOLLOWS THE SECOND PLEBISCITE

A strong movement, centered in Copenhagen (1), is now in progress in Denmark to make that country a republic. At the same time, according to dispatches, a crisis has followed the second or Flensburg zone of the plebiscite (2). The zone voted German on the whole, but the Danish progressives claim that the land should be at least internationalized for the present.

RUHR WORKMEN MUST SURRENDER ARMS BY APRIL 10

Agreement is Reached Between Local Authorities and Government Forces in Essen Conference.

Dusseldorf, April 2.—Soldiers of the workmen's army in the Ruhr district must make a delivery of their arms to local authorities before April 10, under the agreement reached between the government and the central committee of the workmen's general conference at Essen today. They will not be considered rebels if fighting ceases throughout the district by noon tomorrow.

The commander of the workmen's troops before Essen gave a pledge to the conference for the strict observance of the agreement. He declared he had really a good army, but could not continue fighting because he lacked ammunition and asserted all looting had been suppressed and that all looters had been shot.

Assurance was given the delegates, however, there would be no trouble. There is some apprehension felt as to a few extremist groups, particularly as they have learned of a report that government troops have entered the edges of the Ruhr district at several points and that two workmen's delegates were arrested while going to Essen for the conference.

The general strike throughout the Ruhr industrial and agricultural district has been called off, effective as far as possible on Friday morning.

At the last meeting of the workmen's speakers said that his report that he could not have lived to accept a final agreement if the allies had not backed them.

HOLD WITNESS IN ADENA MURDER CASE

Steubenville, April 2.—Pope Oretovich, another Ramsey miner was brought to the Jefferson county jail here in connection with the murder of little Frances South at Adena on March 25. Petrovich is being detained as an important witness against Mike Onankuk, who was charged with the terrible crime yesterday, having identified the bloody clothing found yesterday as belonging with Onankuk for some months before the latter has acted very strange the past week. The boarding mistress who furnished first clues to Game Warden John Crawford who made the arrests has disappeared. Onankuk will be given preliminary hearing at 2 o'clock this afternoon.

Preliminary hearing of Mike Onankuk and Pope Oretovich will be held in the county jail at 2 o'clock this afternoon. Square Henry Lawler decided to transfer the guard jail because of bitter feeling arising. The case against Onankuk is claimed to have been greatly strengthened by the arrest of Petrovich who is an important witness. Many citizens from Adena, the scene of the crime and adjoining towns of Cadiz and Ramsey started arriving here before noon.

FIND SKELETON KEYS ON ROUSE; HE'S JAILED

Paul Rouse of East Main street was picked up at Dennison Wednesday night by railroad officers. He had in his possession skeleton keys and a glass cutter. Rouse was lodged in the county jail at New Philadelphia and was bound over to the grand jury.

Another man with him made his escape when the attempt to arrest him was made.

He had been reared since three years old by his cousin, Miss Cynthia Tuttle, and she was visiting him at the time of his death.

The funeral services will be held at the home at Cullison, near Utica, Saturday afternoon at 1 o'clock and burial will be made at the Owl Creek cemetery.

STILLS ALL LOOK ALIKE TO COPS

Even an Oil Refinery Man Can't Carry Around Copper Coils Without Being Suspected.

You can't travel around with mysterious looking copper contrivances, which are equipped with coils.

At least that is the way the story goes with reference to a trip to Columbus that Daniel Sullivan, a draftsman, for the Ohio Cities Gas company, at Heath attempted to make yesterday.

In connection with his work Mr. Sullivan is said to have left Columbus ward bearing with him a part of a still used in the refining work at the plant. It was rather suspicious looking and in fact so much so that it attracted the attention of a railroad detective who felt that it might make a lovely contrivance in which to manufacture raisin jack or some of the other milder home drinks.

Any way, according to information received they would not permit Sullivan to contaminate the train with the thing, so he had to forgo the trip to Columbus.

MAY IMPROVE ROAD ALONG COUNTY LINE

The county commissioners and Surveyor Irwin went to Hickory Woods yesterday afternoon to confer with the Knox county commissioners about improving a road through Bennington and Hartford townships, Licking county and with Knox county. The township trustees and the abutting land owners agreed to pay 70 per cent of the cost of the improvement.

A meeting will be held April 12 at 10 o'clock for further consideration of the matter.

Military Attache and Wife
Are Attacked By Rebel
Band.

TRAIN IS BLOWN UP WITH DYNAMITE; TRACK DESTROYED

Dispatches Say Party Was
Saved By Colonel's
Quick Work.

Washington, April 2.—Lieutenant Colonel Robert L. Campbell, United States military attaché at the embassy in Mexico City, his wife and an American woman doctor named Paine, were attacked by rebels a few miles from Mexico City, but escaped through "quick work and quickness of action" the state department was advised today.

The attack took place at Trbs Marias, a small station on the railway from Mexico City to Cuernavaca to which place the attaché was going for an outing. The rebels wrecked the train with dynamite and destroyed the track for some distance.

Colonel Campbell and the members of his party escaped without injury, the dispatches stated. The women of the party hid in the woods near the station until the rebels left. The fate of the members of the crew and other passengers on the train was not stated. Details of the attack are being forwarded by mail from the embassy in Mexico City.

RAILROAD WAGE QUESTION AGAIN BEFORE WILSON

Employees Disappointed at
Position Taken By Rail
Executive, President is
Advised.

Washington, April 2.—The whole railroad wage controversy was placed before President Wilson today for the first time since railroad labor filed its demands for a general increase in wages last summer.

In a letter to the president, B. M. Jewell, chairman of the railway committee, which constitutes the labor party on the railroad wage board, said he regretted very much "to advise you of our failure to obtain any beneficial results from these conferences."

The employees, Mr. Jewell said, were keenly disappointed at the position taken by the railway executives committee which announced last night a deadlock and the withdrawal of the railroad members from the conference.

GEN. GORGAS TO DIRECT SANITARY PROGRAM

Lima, Peru, April 1.—Major General William C. Gorgas, former surgeon general of the United States army, left today on the way to New York, Belgium and west Africa, after having accepted a five-year contract with the Peruvian government to direct an extensive sanitation program here. The retaining fee to local paid General Gorgas will be \$15,000 a year.

General Gorgas will return to Peru in January next, his assistant, Colonel Wrightson, remaining in charge during his absence.

NAMED AS EMPLOYEES' REPRESENTATIVE ON RAIL LABOR BOARD

Columbus, April 2.—More than 1200 local employees of the Norfolk and Western railway, including car mechanics, boiler makers, machinists, blacksmiths, sheet metal workers, coach cleaners, hostlers and laborers were expected to go on strike by noon today out of sympathy for the Brotherhood of Railway Clerks of that system who are on strike.

Following word from Roanoke, Va., that members of the Brotherhood of Railroad Trainmen last night voted to strike at 4 o'clock this afternoon, local union officers stated the local trainmen are expected to respond to this call to strike unless the order is countermanded. It was said that this would completely tie up the Norfolk and Western system.

George P. Davis, chairman of the carmen's local organization, returned this morning from Roanoke and called a meeting of shopmen for this forenoon. It was said the shopmen would strike following the meeting.

SWITCHMEN QUIT WANT \$1 AN HOUR

Chicago, April 2.—Several hundred switchmen and switch tenders employed in the Chicago terminal of the Chicago, Milwaukee and St. Paul railroad were on strike today.

They walked out last night to enforce demands for a wage increase of from 52 cents to \$1 an hour and in protest against the discharge of a yard master, they said. A. F. Whitmer, vice president of the Brotherhood of Railway Trainmen, said the strike was illegal and characterized as an attempt to disrupt the national organization.

Switchmen's union officials said 200 men, sufficient to handle traffic, would remain at work. Police guarded the yards after 200 workers were reported to have attempted to overturn a passenger coach.

COUNTY VISITORS NAMED.

Edna M. Krieg and C. L. V. Holtz have been appointed members of the county Board of Visitors for a period of three years by Justice Robins Hunter of the probate court.

EMIR FEISAL SUCCEEDS POET D'ANNUNZIO AS THE ALLIES' GREATEST TROUBLEMAKER

Emir Feisal (tall figure in center) inspecting his troops.

Emir Feisal, son of the king of the Hedjaz, is now called the allies' greatest troublemaker, outdoing Gabrielle d'Annunzio, conqueror of Fiume, as the worst thorn in the allies' side. He was recently chosen king of Syria and announced the complete independence of his people. He is interfering with the allies' plans in Asia Minor, repudiating understandings reached between the big powers and other representatives interested in the Turkish situation.

WILSON'S NAME IS WITHDRAWN IN GEORGIA

Atlanta, April 2.—With the withdrawal of President Wilson's name by a number of Democrats who entered him in the Georgia Democratic presidential preference primary to be held April 20, only three candidates were left in the race when the entries closed yesterday.

They are Attorney General Palmer, straight out advocate of the administration; United States Senator Hoke Smith of Georgia, who declares in favor of the administration and who desires the treaty and league ratified with reservations; and Thomas E. Watson, former Populist candidate for president, who stands squarely against the League of Nations.

—Tieup of Road Threatened.

Columbus, April 2.—Approximately 1,000 local employees of the Norfolk and Western railway terminals struck this afternoon in sympathy with the Brotherhood of Railway Clerks, according to announcement made by union officials.

SAY CLERKS' STRIKE MAKES ROAD UNSAFE

Roanoke, Va., April 2.—Officials of the Brotherhood of Railway Trainmen announced today that members of the organization would adhere to the decision to withdraw from service on the Norfolk and Western railroad at 4 o'clock this afternoon. They claimed conditions on the road have been rendered "unsafe" by the strike of railroad clerks and that passenger and freight traffic would be tied up by nightfall, but that mail trains would be operated.

Local officers of the Brotherhood of Locomotive Firemen and Engine Drivers said members of that organization would refuse to work on trains manned by strikebreakers.

SAYS CHICAGO STRIKE IS WITHOUT SANCTION

Cleveland, April 2.—W. G. Lee, president of the Brotherhood of Railway Trainmen, when told of the strike of 700 switchmen and switch tenders in Chicago, said the strike was unauthorized and illegal and that the laws of the brotherhood would be fully enforced and every effort would be made to compel the strikers to return to work.

CITIES MAY ADOPT LICENSE PLAN TO STOP HIGH RENTS

Solicitors Will Look Up Law
On Subject Next Week

LAW WOULD PROVIDE FOR MUNICIPAL RENTING BOARD

License Would Allow Only
a Fair Return On Property
Valuation.

Columbus, April 2.—A system of municipal licenses may be employed by the state to curb rent profiteering in the larger Ohio cities.

Such a system was agreed upon here late yesterday at the conference of city solicitors from 15 of the principal cities of the state with Governor Cox.

Not until it has been established definitely that the cities lack authority to provide relief will the state take action through the legislature, it was emphasized by the governor.

A committee composed of W. S. McConaughy of Dayton, J. S. Martin of Toledo, John D. Marshall of Cleveland and J. H. Leighninger of Youngstown will determine whether the licensing system, which was proposed by the Dayton solicitor, is possible under present city charters and present municipal laws. The committee also will draft a model ordinance to be passed by the various municipalities. The four men, with the co-operation of Attorney General Price or a representative from his office, will meet here next Thursday morning.

The committee should decide that cities are without authority to curb profiteering, it is held likely that the governor may call a special session of the legislature to provide adequate machinery.

A licensing system for landlords, as proposed, would provide for a city rental board composed of three city officials, the board to grant licenses to all landlords and to hear complaints of tenants. The application for license would compel landlords to agree to charge a rate of rental that would yield only a fair return on investments, and to obey rules of the board. Each individual complaint of excessive rent, charge would be investigated by the board, and after a hearing, the board would determine what a "fair" rate is. Landlords charged with excessive rents who disregard rules of the rental board would be subject to a fine.

The cities represented at yesterday's meeting were: Cleveland, Cincinnati, Columbus, Toledo, Dayton, Youngstown, Canton, Springfield, Mansfield, Steubenville, Zanesville, Findlay, Sandusky and Circleville.

FIRE AND POLICE EMPLOYEES UNPAID

Funds Are Exhausted and
No Money is Available
Unless Short Term Notes
Are Issued.

Firemen and police are looking in vain for pay checks for April. Due to the deficit in the safety department funds are exhausted. It is said that the finance committee has nothing until the deficiency bonds are voted on in the April primaries. If the issue carries \$55,000 will be available to pay the salaries, now outstanding, and provide for the rest of the year.

At a recent meeting of the Taxpayers' league the importance of passing this bond issue was brought up and the league urged the citizens of Newark to vote in the affirmative.

"The finance committee has no action in contemplation," said Frank Knauber, member of the committee today, in regard to providing money for the pay of the firemen and police.

"The police were given five days pay on the 15th of March and the firemen received 15 days' pay, using up all of the money in the safety fund," said Knauber. "The police are now on a meeting tonight. Knauber said, 'but it is to consider other matters than safety funds.'"

TRAINMEN TAKE VOTE ON STRIKE PROPOSAL

Chicago, April 2.—Results of a strike vote cast by members of the Brotherhood of Railway Trainmen employed by the Chicago, Rock Island and Pacific railroad will be announced today, according to A. F. Whitmer, vice president of the order. He denied reports that orders already had been issued for a general walkout at 6 o'clock next Sunday evening, and did not name the effective day, should the canvass show an affirmative vote.

Wage demands are not involved, Mr. Whitmer said, the ballot following failure of negotiations for altered working conditions.

BROTHERHOODS HAVE NOT APPROVED STRIKE

Cleveland, April 2.—Regarding a threatened strike this afternoon of members of the Brotherhood of Railway Trainmen, employed on the Norfolk and Western railway, W. G. Lee, president of the brotherhood, has wired J. Smith, general chairman of the organization at Roanoke, and General Manager Jinks of the Norfolk and Western as follows:

"Threatened strike of members of trainmen's brotherhood on Norfolk and Western is illegal. Our organization will support and protect the present contract with this railroad, and will be damaged by unauthorized action."

EXPLAINS WHY MAIL IS LATE

Postmaster Points Out That Trains Are Running on Same Schedule Though City Time is Changed.

The change of time is causing complaint over the late delivery of mail.

Regarding the matter Postmaster P. T. Mercer had a conference with Manager Leach of the Chamber of Commerce yesterday. Many people have felt that they are inconvenienced by opening their places of business earlier and having to wait for the mail delivery.

Postmaster Mercer explained that it was impossible to have earlier mail delivery owing to the fact that the railroads did not change the time of running the trains. Mr. Mercer said the mail arrives in Newark at the same time it did before the clock was changed and the mail is sent out just as soon as it can be prepared. If the postmen were to leave the postoffice an hour earlier in the morning a large portion of the mail which is received in the morning delivery could not be delivered until afternoon. If the postmen were to leave an hour earlier in the afternoon a considerable portion of the mail now delivered in the afternoon would not be delivered until the next morning. That would cause a delay of about 12 hours.

The postmaster feels the interests of the community are served to much better advantage by having deliveries made the way they are now, as mail is actually received earlier than it would be if the postmen made earlier deliveries.

HOBO'S DISAPPEARANCE.

What has become of "Wandering Willie," "Dusty Rhodes," and all the other far famed characters of the comic papers, who formerly typified the vagrant world? In former years the country people had to provide them with hand-outs every day. In cities they were a familiar figure as they sought the park benches reserved for women and children. Freight cars were infested with them, and the camp fires were seen all along the railroad lines.

In these busy times the American Land Service, which furnishes seasonal workers for harvesting crops, says this element is almost extinct. It was the common feeling in former years that these fellows would not work except under extreme provocation. Innumerable specimens of them, given a saw and axe and led out to the wood pile, have taken the first opportunity to disappear. Has the leopard changed his spots, and the Ethiopian his skin? Has Wandering Willie proved false to his conscientious scruples against labor, and has his festive wanderlust lost its spirit of adventure?

It looks very much as if the hobo element had sacrificed their principles and gone to work. Of course the majority of them always did work off and on, when there was no other way to live. The farmers employed many thousands of them at harvest.

Labor conditions have been very tempting the past year, and many for mer vagrants have yielded to the seductions of a regular job. On high factory pay and short hours, the temptation was great. The employment agencies say prohibition has something to do with their change of heart. It takes imagination to make railroad box cars attractive for traveling, and a barn loft a pleasant hotel. It may take the flowing bowl to stimulate that point of view.

BUILDING.

Contractors and builders in many places complain bitterly of the high costs of building this spring. Many of their employees will work only in a half hearted way, and seem anxious only to make their jobs hang on, regardless of the cost to the man who buys the house.

Even worse are the exorbitant prices asked for many kinds of materials, for which prices several times the pre-war figures are being asked. There is a nation wide shortage of houses. A lot of people seem determined to take advantage of that fact to stick the public for prices that would never have been dreamed of before the war.

The one remedy, is for everyone in those trades to do his best to stimulate production. Just as soon as there is an ample supply of materials, the prices will have to come down.

No-tipping hotels are becoming more common in Europe, but in this country the landlord sees no reason why the guests should not pay his help's wages if they want to.

With wages in many industries low and on the cost of living a family of five people, it is not surprising that the single men are able to buy some silk shirts.

The first authenticated report of increased production was heard when the news of the revolution in Berlin made the ex kaiser saw wood faster.

It is going to be hard to tell whether the arraignment of war criminals in Germany is a trial or a popularity contest.

Married Strangers

A powerful story dealing with a problem being worked out in thousands of American homes to-day—that of the husband and wife who find they grow apart while the man goes to war.

CXIII.—Hello, Hawaii.

"Honolulu today" announced the little missionary cheerily when she came on deck in the morning. "The captain says we dock at 11 o'clock."

The evening before had wrought a miracle with the little missionary. Her eyes were bright and shining and a little color had crept into her cheeks. "Don't get up," she cried before Keitha could spring up to assist her into Bennett's empty chair. "I feel as strong as an ox this morning. I could wrestle with the whole heathen population of the world today and come off victorious."

"It must be the prospect of a sojourn on land," laughed Keitha. Miss Caldwell gave her a long look. "I'm not getting off at Honolulu after all—except for a few hours," she said coolly, and then flushed vividly. "Oh," Keitha's eyes grew large with mischief. "Oh, I see."

Miss Caldwell leaned over and whispered in Keitha's ear: "I am going to be married today and go to Java, not China." Before Keitha could voice more than a delighted exclamation Copley-Warner joined them. He accepted Keitha's congratulations complacently and with coyish pride, then he turned to his bride-to-be with a solicitude the more marked for his former teasing. "Don't you think you had better go to your stateroom, Martha, until we get into port. It's likely to be rough. They say there was a bit of a storm passed over here early this morning."

"Perhaps I had better," agreed the little missionary meekly. "Don't come," she called to Keitha, who rose to assist her. "I want you to stay on deck for your first glimpse of Hawaii. The islands are very beautiful as we come in from the sea."

Obediently Keitha remained in her chair. To the starboard were the low lying islands of the territory of Hawaii, purple in the distance. Diamond Head reared blackly against a sky whose turquoise was almost burnished. Water

VALUABLE JUNK.

(Cleveland Plain Dealer)

America makes between 70 and 75 per cent of the rubber goods manufactured in the world. We use more than half of the tin production. Yet, we are dependent on foreign markets for raw materials required by both these important enterprises. This condition is largely responsible for the energy displayed by junk collectors to get old rubber and old cans. They are unusually valuable now as manufacturers are having difficulty in getting enough new raw materials for their needs.

Raw rubber imports in 1914 were valued at \$71,219,851. During the last year our purchases abroad aggregated more than \$200,000,000. Tin ore and unfinished tin in other forms cost American manufacturers more than \$125,000,000. Nearly all the rubber came from faraway Dutch East Indies and the Straits Settlements, as the Brazilian market is no longer an important source of supply since our demands have been so large. The tin was imported from the same markets as rubber and also from Bolivia.

In the face of these conditions, the department of agriculture is making extensive experiments in developing the growth of rubber in the Panama Canal Zone, Haiti and Santo Domingo, and the interior department has become anxious to the importance of working the deposits of tin in Alaska, the only one of our resources within our own borders. Since virtually all the sources of raw rubber and tin abroad are controlled by foreign capital and since the materials must now be transported thousands of miles, success of the government agencies in their endeavor to produce both rubber and tin ore nearer home means much to American manufacturers.

Pending results, old rubber and discarded tin cans will be in demand. Like many other kinds of junk, they will mean much to manufacturers until new sources of supply are developed on a large scale.

If prohibition becomes the issue, Mr. Bryan may logically claim to be the peerless leader.—Pittsburgh Dispatch.

BELGIAN STEALS AUTO FROM BENEFACTOR

Toledo, April 2.—Accused of robbing his benefactor, Eugene van Acker, 18 years old, was arrested here late last night and returned to South Bend, Indiana, to face a charge of grand larceny.
Van Acker, a Bulgarian refugee, who was taken at the home of the mother of a soldier who was killed in action in France, is said to have been a protégé of the president of Notre Dame academy, South Bend, and three days ago decamped in the president's \$5,000 automobile. Van Acker told his captors that he was planning on selling the automobile and returning to Belgium, according to the police.

FERRY SERVICE IS CRIPPLED BY STRIKE

New York, April 2.—New York's ferry service was crippled today, railroad shipping was considerably curtailed and other harbor traffic was more or less affected by a strike of lighter tug and ferry workers of railroads. Company officials in redoubling their efforts to keep their lines in operation indicated that strike-breakers might be pressed to service if necessary. According to union estimates 6,000 harbor workers quit work.

SWISS SOCIALISTS TO CALL WORLD STRIKE

Geneva, April 2.—Preparations for a world-wide 24-hour strike, on May 1, are being already made in Switzerland by Socialists, communists, and other radical elements. Foreign agitators are active in the movement, but they will probably be expelled before that date. It is virtually certain, however, the Swiss will join in the movement, which was launched by Nikolai Lenin, Bolshevik premier of Russia, as an experiment to test the strength of the word proletariat.

STRIKING EMPLOYEES WILL ARBITRATE WAGES

Chicago, April 2.—Virtually all striking municipal employees today returned to work pending arbitration of their demands for salary increases, but the threatened "resignation" of 100 city firemen still menaced.
The firemen spurned Mayor Thompson's proffer of arbitration and voted to hold out for their demand of \$300 a year increase, as against the \$192 raise voted by the city council. Signed resignations, carrying the legal five day notice, were in the hands of firemen's committee for presentation today.

STOCKYARD EMPLOYEES RETURN TO WORK

Chicago, April 2.—Nine hundred striking stockyard employees went to work today under an agreement to arbitrate their wage differences with the Union Stock Yards and Transit company. Delivery of live stock shipments was resumed and more than 7,000 packing house workers who were forced out of employment during the strike went back to their places.

No one, after reading her letter, can continue to doubt the great healing power of PE-RU-NA for troubles due to catarrh or catarrhal conditions in any part of the body. Her letter is an inspiration to every sick and suffering man or woman anywhere. Here it is: "I suffered two years with catarrh of the head, stomach and bowels. Tried two of the best doctors, who gave me up. I then took PE-RU-NA and can truthfully say I am well. When I began to use PE-RU-NA, I weighed one hundred pounds. My weight now is one hundred and fifty. I cannot praise PE-RU-NA too highly, for it was a Godsend to me. I got relief from the first half bottle and twelve bottles cured me. STORY TOLD BY WOMAN OFFERS WORTHY ADVICE

Suffered for Eight Months then
Trutona Gave Her Real
Health Again.

Delaware, O., April 1.—Mrs. Mary Kaley, wife of a local employe of the Hocking Valley R. R. Company, who lives at 112 East Central Street, is now advising others to give Trutona, the perfect tonic, a trial, after gaining remarkable relief from her troubles through its use herself. She is both grateful and enthusiastic in describing her relief in the following interesting statement:

"About eight months ago I began having trouble with my liver and kidneys, but I didn't pay much attention to it until about three months ago, when I realized that something had to be done. My appetite had become poor and what little I did eat didn't taste right. I was also bothered a great deal with headaches and dizziness at times. I was so nervous I couldn't sleep at night, and when I'd get up of mornings I'd feel as though I hadn't had any rest at all.

"It has taken just one bottle of Trutona to create this decided improvement in my condition. I don't suffer from the headaches as I formerly did, and that dizzy feeling has also been relieved. The pains in my right side and back, too, have been relieved by Trutona, and my nerves have been steadied so that I can sleep much better now. There is only one trouble about my appetite nowadays, and that is getting enough to eat. Trutona has certainly done for me just what was recommended for it and I know it is the medicine for ailments such as mine. My advice to others who are troubled as I was, is to try Trutona as I have done. Trutona is now being introduced and explained in Newark at W. A. Erman's Drug Store.

Milady's Boudoir

In Middle Age. Friendship, intellectuality and social triumphs, useful work and absorbing hobbies are the youth keeping pursuits of the middle aged woman of today. As long as she feels young, as long as she can live in the present she will be of the present, but if she should let her mind or her conversation tend to linger in the remote past, she will soon lose her grip and become an old lady.

In approaching middle age a woman should determine to be self sufficient, for the nearer she approaches a serene independence of the favors of others, the happier she will be and the pleasanter companion she will make of herself.

She should be ready to give and not eager to receive. No tragedy is sadder than that of a mother whose desire for the presence of the children who have gone away, cuts like a sword into her soul, or for the single woman who wakes up and finds that love has passed her by.

Through her affections alone, often suffered cruelly, but what broke her heart, nowadays causes the modern woman to harden hers. She is having interests of her own which do

Our Boys and Girls

Many mothers are at a loss when they hear of a new baby in the neighborhood, as to what to give for a little gift. Such a present need not cost much and it will be greatly appreciated by the mother. Here is a suggestion that may be welcome.

Procure a small fine guest towel and work across one end of the center the word "Baby" in pale blue or pink. The script letters, joined, are

prettier than the printed ones. By placing the letters in the proper order to spell the word and connecting them with a pencil mark, one can easily join the letters together.

Fold the little towel so that it will fit in a large glove box and leave a square vacant place at one end. Now take a pink or blue barred Turkish washcloth and fold it in the vacant place. Tie about it crosswise an inch wide pink or blue ribbon with a pretty bow on top. Wrap the box in white paper and tie with a narrow ribbon the same shade as that used inside the box.

AMUSEMENTS
AUDITORIUM
"Tiger Rose" Tonight.
The "Tiger Rose" will build and blossom at the Auditorium theater tonight in a primitive atmosphere, of the Canadian Northwest and David Belasco the producer will be frank enough to call it melodrama, but we are told it will be a great deal more than that. The scenes will carry the audience to the northernmost edge of the Arctic and give to its viewers hours of suspense over watching "Tiger Rose" herself, both Canadian and half-breed, evade a murderer and a man hunt heightened by a storm and illuminated solely by lightning.
Just as Mr. Belasco originated the most thrilling of mountain snowstorms in the "Girl of the Golden West" in "Tiger Rose" he is said to have given the theater a rain-fall to which other similar effects will be compared in the future.
In this scene a young civil engineer is being pursued by the Royal North West Mounted Police. The boy is the first love and the last of Tiger Rose, the widow of a Hudson Bay Trader. He comes to her home to meet a terrible electrical storm commences but why to into detail? The amazing incidents that Mr. Belasco promises are said to keep its spectators on the edge of their seats throughout its unfolding. Seats are selling.

"The Road to Divorce."
The Auditorium Sunday offers the Universal's popular star, Mary MacLaren, who is seen in her latest feature "The Road to Divorce." It is an absorbing story of everyday life in a small town and shows the devotion of a good wife to her home and children, who in doing this neglects that essential quality which is necessary to married life—companionship with her husband—and which leads in some cases to the "other woman's" entrance into their lives. Many pretty scenes are shown the locals being laid in the town of Marblehead, in the state of Massachusetts. After her wedding with Dr. Shaw, the young bride is installed in a pretty cottage by the sea where her dreams become a reality. A few years pass. The storm has visited the Shaw family on two occasions and Mary finds so much to occupy her mind and time in care of the babies that she begins to neglect herself and husband the later growing indifferent. At this time Pauline Dallis comes to visit them. She is intelligent, fashionable dressed and has no babies to absorb her attention. Her interest in politics and feminist movements excite the husband's attention, who compares the woman, his wife suffering by the contrast. On the final day of Pauline's visit, the Doctor takes her for a sail. Their proximity tempts the doctor to unburden his thoughts and

PLAN TO LOWER
COST OF MEAT

Federal Department of Justice
Starts Campaign of Inten-
sive Education.

URGED TO BUY CHEAPER CUTS

Forequarter Meat, Looked on With In-
difference by the Majority of House-
wives, Is High in Quality and
Nutritive Value.

Washington.—Farmers and stock
raisers are indirectly interested in a
nation-wide campaign which has just
been undertaken by the department
of justice to increase consumption of
fore-quarter beef cuts.

The general campaign is already un-
der way. Intensive educational efforts
began with the "Save-Money-on-Meat
week" in Illinois, Iowa, Wisconsin,
Michigan, Ohio, New York, Indiana,
Pennsylvania and New Jersey.

Every farmer who raises beef an-
imals has to produce fore-quarters as
well as hind-quarters, and he has to
put the same high-priced feed into both.

But city housewives more than ever
before have been largely confining
their purchases to porterhouse, sirloin
and club steaks. If they do buy fore-
quarter meat, it is sure to be prime
ribs. The uneven demand makes
these cuts higher in price, but no mat-
ter how high they may go there is no
corresponding benefit to the producer,
for he cannot confine his production
to porterhouse and sirloins. He must
make chucks, plate and clod, to which
a majority of the housewives are in-
different.

Buy Cheaper Cuts.

The department of justice is trying
to interest consumers in these palat-
able, wholesome cuts of the fore-
quarter and thus bring about a more even
consumptive demand. The result will
be a more even scale of prices and bet-
ter prices on the whole to the con-
sumers all along the line, while live
stock prices will not be affected.

If the department succeeds the pro-
ducer will have a market among house-
wives for all his beef. Of course, the
department is not directly concerned
with any plan to increase beef con-
sumption, for it will have achieved its
aim if the distribution of meat is made
economical and if consumers are made
to see how they can help themselves
by studying the different cuts of a
beef carcass.

The fact that makes the campaign
possible, however, is that beef should
actually be an inexpensive food; and
as an inexpensive food its use would be
greatly increased if an economic de-
mand is developed. Consumers will
learn how to get more good beef for
less money than before, and the vol-
ume of beef consumption will be in-
creased as a direct result.

Will Help Meat Industry.

This is an advantage to the con-
sumer, but hardly less of an advantage
to the producer. For a great many years
there have been efforts to increase
economy of production, but economy of
consumption has been neglected. The
quality of chucks, clods and other fore-
quarter cuts is so high and their nutri-
tive value so great, that the economy
preached by the department of justice
is entirely sound and bids fair to be a
permanent and growing thing.

Between forequarter and hind-
quarter cuts there has never perhaps been
so large a spread as now. A decrease
in this spread will be of enormous ben-
efit to the whole meat industry.

BRITISH RAISE SEA TREASURE

\$175,000,000 Worth Regained Around
the British Isles Since the
War Started.

London.—Sunken treasure worth
£50,000,000 (about \$175,000,000) has
been raised since the war began
around the British Isles.

The Restorer and the Reliant, two
salvaging vessels that were bought by a
British concern from the American
navy, have a new device, an oxy-acety-
lene flame, which is worked under wa-
ter for cutting holes in the sides of
submerged vessels.

Each ship has twenty-five electric
pumps capable of pumping 1,000,000
gallons of water an hour and carries
two divers, searchlights, lime-throw-
ing guns, electric welding plants, rock
drills and other accessories. Each
diver is equipped with a telephone.

The Restorer last year recovered
£100,000 in gold from two vessels
which are now operating off New Ha-
ven on the channel coast.

Frank Calf Born.

Sturgeon Bay, Wis.—A calf with
seven legs, one of the most peculiar
animal freaks that has come to light
in this vicinity, was born on a farm
near this city. Six of the animal's
legs are fully matured. The seventh is
somewhat shorter and undeveloped.
The freak was born in the center of
Door county's dairymen section, the
owner being Carl Kroll, a farmer re-
siding a few miles from this city.

Ex-Prince Draws Fishermen.

Wieringen.—In the year and a half
he has been in Wieringen the former
German Crown Prince Frederick has
drawn the portraits of a large propor-
tion of the fishermen and other inhab-
itants of the island.

NEWARK MAN ABLE TO WORK FIRST TIME IN MONTHS

Had to Lie With Head Propped Up
All the Time; Felt Weak and
Nervous.

DRECO GAVE RELIEF

Claims the New Medicine Has Made a
Big Improvement in Him.

Yesterday was the first time I have been able to do a lick of work in months, and I give the credit to Dreco, the new medicine," declared Mr. Dawson Long of 14 Western avenue, Newark, O., in a signed statement. "I was weak and nervous, had no energy, no strength to do a thing; my bowels were bound up, liver sluggish and my stomach seemed unable to get any strength from the food I ate. Whenever I'd lie down I would have to have my head propped up, as I couldn't stand to feel like the blood was rushing to my head."

"I went down and talked to the Dreco man about the new medicine, and got a bottle; it started my bowels to moving and eased my stomach. In a few days I was feeling so much better, and I kept on taking Dreco; it is wonderful what it has done for me; I feel like a big load has been lifted from my existence, my liver is active again; no more dizzy spells; food digests and strengthens me; in fact, I feel that I am on the road to recovery and expect to keep on taking Dreco, for it's great medicine."

It is highly important for the bowels to keep active; that the kidneys do not become deranged; that the liver supplies the proper secretions to the stomach, so that digestion may be perfect. Dreco, the natural Leno medicine, acts on these vital organs, toning them so that they perform their duties as Nature intended they should.

All good druggists now sell Dreco, and it is highly recommended in Newark by Evans Out Rate Drug Store.

COLUMBUS USER AN ENTHUSIAST FOR NERV-WORTH

The Greatest Remedy for Nervousness
I Have Ever Used,"
She Says.

And Mrs. Birkhimer found this famous family tonic exceedingly helpful in overcoming her other serious, troubling and painful ills. Thus she told the story and signed her name to it a few days ago:

Nerv-Worth Co.—For more than a year I have been in a very nervous condition. Could not sleep and get any rest. Tossed about the bed all night, and was going down every day. Appetite and digestion in bad condition. I tried in every way and all the remedies I could learn of to rid myself of this terrible nervous condition, but could find nothing until I got a bottle of Nerv-Worth. Three bottles put me in fine condition every way. I can now sleep soundly all night through and feel rested and strong in the morning. Appetite and digestion good and my kidneys no longer annoy me. I think Nerv-Worth is the greatest remedy for nervousness that I have ever used or know of.

MRS. F. BIRKHIMER,
17 Buttrick Ave., Columbus, Ohio.

Managers Austin and Graves of the Granville Opera House, in addition to the excellent line of photographs they are showing four times weekly, are always willing to co-operate in any campaign for civic betterment. On Saturday evening, April 3, they will throw on the screen in addition to the advertised features, an interesting film entitled "The Making of a Nurse," in the interest of the Red Cross Public Health educational campaign.

Nothing Pays Better Than Taking Care of Yourself

Men seem to care more for money than they do for health. They do not seem to realize that it pays better to take care of health than to take care of business. The best asset any one can have is healthy kidneys. The kidneys are more important than a bank account, for healthy kidneys will keep you alive, while a big bank balance won't.

The signs of bad kidneys are rheumatism, lumbago, neuralgia, dropsy, pains in the back, spots before the eyes, dizziness, sleeplessness and puffs under the eyes—all the results of poisons that the kidneys fail to filter out of the blood.

The cure is simple. All you need is something that will get the excess uric acid out of the system. Nothing does this so effectively and safely as Dr. Pierce's Anuric (anti-uric-acid) Tablets, which cost only 60 cents in drug stores. Anuric is an unusual medicine that dissolves uric acid much the same as hot water dissolves sugar or salt. It will pay you well to take care of your kidneys and health by taking Dr. Pierce's Anuric Tablets.

By writing Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., and sending sample, you can have urinalysis free of charge. Send 10c for trial package of tablets, or 50c for "Medica! Adviser."

A Pretty Suburban Home

And one acre of good land, level as a floor, well drained and fenced. An elegant eight-room house with bath, furnace, full basement, gas for heating and lights, nice front porch, beautiful lawn with shade and shrubbery, nice walks from road to house, good well, cistern, 32 fruit trees, apple, pears, peach, cherries, grapes, blackberries and strawberries. Nice garage and chickenhouse. This property is located between Newark and Granville, in the beautiful addition known as Centerville. Priced at \$6,500. Let us show you this.

235 A.—Near Buckeye Lake. A rare opportunity. Said to be one of the best all around farms in Licking county, 1/2 mile from town with elevator and railroad; 5 miles from traction; 9 miles from county seat. Fine soil in a high state of cultivation. Five gas wells paying \$1,000 per year, half of 35 acres of wheat goes with farm. Immediate possession. Good 8-room house picturesquely located on fine pike; large bath nearly new; all other necessary outbuildings. Near graded and high school, in a fine neighborhood. We feel fortunate in securing this farm for sale, it being a rare thing to find a farm of any kind for sale in its neighborhood. We can secure good terms. It will go quick. See us for further particulars.

100-Acre Licking County Grain and Stock Farm, located about twelve miles north of Newark, two and one-half miles east of Ulica on good road, one-half mile from new pike under construction, another pike will probably be constructed one mile from farm this summer. Farm lies practically level with a gradual slope to the south. Farming fields are well tilled, soil is a clay loam and produces fine crops. Farm has been in same name for 100 years. 18 acres of growing wheat goes with farm; 3 acres of good apple orchard. Eight-room house in good condition, furnace, stone foundation, cellar partly floored, gas for heat and light. New bank barn 36x48; stanchions for seven cows. Cement silo 121x31 and other out buildings. This is an old homestead and a picturesque place and will sell quick at the price.

will get a two-day showing only, starting Monday. Allan Dawn is the director and Richard Harding Davis wrote the play.

Out on the blistering, relentless desert of Western America, to quote the author, Robert Clay heads a party of civil engineers laying the trail for a transcontinental railroad. His men and stock are almost exhausted, and Mr. Williams, Clay's associate in many adventures, suggests that they take an easier route. "This route means the saving of millions of dollars to the company, and if I don't go through with it she would think I'm a quitter," replies Clay, as he gazes at the picture of a girl in the cover of his watch. The girl is Alice Langham, a stranger to him, daughter of his employer. He had cut out the picture from the social edition of a popular magazine that he had found and looks upon the pretty girl as his mascot.

Of course, they were destined to meet. After the engineers complete their work, Clay is introduced to Alice at a reception given by Mr. Langham in honor of President and Madame Alvarez, of the little republic of Olancha in South America.

Let's Go!

By arrangement with Ackerman, Harris and Brown, the scintillating Fanchon-Marco Revue, "Let's Go!" will be seen at the Auditorium theater, Wednesday, April 3. "Let's Go!" was conceived for entertaining purposes only. It is not encumbered by a plot of great moment, but is an ideal parcel of merriment, garnished with catchy music and garded with girls. The celebrated Fanchon and Marco themselves are seen at the head of the lengthy cast of musical comedy, vaudeville and operatic favorites. As creators of novelties in dancing, Fanchon and Marco have no peers on the contemporary stage. Their work is distinctive and bears the stamp throughout of originality. For this new edition de luxe of Let's Go! the stars have evolved a number of away-from-the-ordinary novelties that are sure to catch favor. The supporting company is a lengthy one and entirely worthy of the stars. Seats on sale Saturday 10 a.m.

Louise Glaum

Owing to the length there being 7 full reels Manager Fenberg will move Louise Glaum, being shown at the Alhambra today in "The Lone Wolf's Daughter" to the Auditorium for Saturday showing, with the prices remaining the same as at the Alhambra. At the Alhambra Saturday Will Rogers will be screened in "Jubilo" a Goldwyn feature in which this star has the best role of his career.

ALHAMBRA

With a record of greater public acclaim than has crowned the work of a producer in years, J. Parker Read, Jr., sponsor for Louise Glaum's world-famous picture, "Sahara," has, according to the critics, won even higher laurels in his presentation of the inimitable emotional artist in Louise Joseph Vance's "The Lone Wolf's Daughter," sequel to and unquestionably more powerful than "The Lone Wolf" and "False Faces."

Consummately enacted by one of the most popular screen stars and an unmatchable coterie of players, including Edwin Stevens, Thomas Holding and Bertram Grassby, "The Lone Wolf's Daughter," hailed everywhere as the year's greatest melodrama, is certain to keep audiences in tense expectancy than any other story by Mr. Vance, famed master of melodrama, and to increase further Louise Glaum's already tremendous following. W. W. Hodgkinson Corporation, distributors of "The Lone Wolf's Daughter," announces J. Parker Read, Jr.'s second Louise Glaum production for presentation at the Alhambra today.

This feature is shown at the Auditorium

"Jubilo"

"Jubilo," with Will Rogers in the title role, is the screen attraction at the Alhambra theater for Saturday. Ben Ames Williams' story appeared as a serial in the Saturday Evening Post and Goldwyn Pictures, secured the screen rights, as they believed the role of the prince character would fit their star like a glove, and Will Rogers is credited with giving such a masterly characterization of Jubilo that it is declared he has firmly established himself as a screen star of the higher calibre. When this homely roving hero was forced to arise from his slumber in the field simply because the sun was shining in his eyes, he is mystified to see a train robbery occur not less than a quarter of a mile away. This picture is described as possessing the essential human appeal that is the supreme mark of greatness in a photoplay. This feature is shown at the Alhambra, while the "Lone Wolf's Daughter" moves to the Auditorium.

Out of the Shadow.

There are few who have not read E. W. Hornung's powerful novel, "The Shadow of the Rope" which was published several years ago and which has enjoyed a phenomenal sale. This story has been pictured by Paramount under the title of "Out of the Shadow" and it will be shown at the Alhambra theater next Monday and Tuesday with beautiful Jaume Frederic in the stellar role.

GRAND.

One of the old methods reported to have been employed by certain officers of the law in mountain regions, whose sympathies for their fellow natives rose above their sense of duty, is presented as a dramatic incident of Viagraph's latest feature, "The Birth of a Soul." The expedient is that a sheriff hurriedly swearing in as deputies the men who would be likely to seek vengeance upon a fugitive.

Thus, if the fugitive happens to be captured by these men and slain, the players have the defense that they were regular officers of the law and that they shot the victim to prevent escape. It is a literal form of legalized murder. "The Birth of a Soul," with Harry T. Morey as star, will be shown at the Grand theater on Sunday and Monday.

"Beloved Cheater."

Low Cody, the most finished artist the screen had developed in several years, will shortly be seen in "The Beloved Cheater," a Robertson Cole production.

The Beloved Cheater, as he is called, is the idol of the fair sex and, different from most of that type, popular among his men friends.

LYRIC.

At the Lyric today Hostess Musical Comedy will have an entire change of program with all new musical numbers and the famous farce comedy, entitled "The Night Out." As an extra feature tonight 5 big amateur acts will be put on, some of them for the first time on any stage. Tomorrow there will be an other change of program and musical program is being arranged for Sunday.

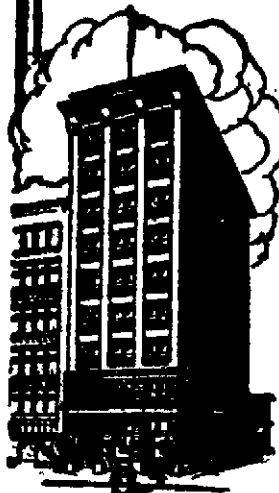

Wing—"When a fellow is a bad egg he shouldn't be hard to beat." Wage—"The trouble is nobody wants to tackle the job."

THAT "HOMEY" FEELING HERE.

The only way a person can be made to feel at home in a bank is to show the person that the bank honestly appreciates his or her business, and we always try our level best to show that we do just that here.

It is almost as natural for us to be pleasant and affable to our customers as it is to eat and sleep.

LAY AWAKE NIGHTS WITH BAD COUGH MANY AN HOUR

"I Had Severe Pains in My Chest, Choked Up, Couldn't Breathe."

"I had severe pains in my chest and would cough all night long of nights. I would lay awake for hours and be so choked up I could hardly breathe. I would sit up and catch my breath. Get out of bed and walk around but soon as I would lay down it would start again," declared Mrs. Armitage, whose address follows.

"I had seen the advertising about Earle's Hypo-Cod but didn't get it until a friend urged me to take it on trial which I did and with splendid results. I am now feeling just fine and my cough is gone. I breathe freer and easier at night too, and can go to bed now and sleep all night through without ever waking up at all," continued Mrs. Helena Armitage, 403 N. 10th St., Columbus, Ohio.

People troubled this way should avoid warm, close rooms, get out and get lots of fresh air, eat plenty of good food and by taking Earle's Hypo-Cod which cleanses the system of all such troubles and build themselves up to robust strength and health. It is easy according to users. Just read the formula on the bottle and you can readily see that it is ideal.

Earle's Hypo-Cod is sold here by all good druggists and the leading druggists in all nearby towns. Price \$1.25, plus 5c war tax.

PONY GIRL

Pony Girl is no ordinary horse. She has a history. Pony is only her stage name. She has seen better days, but like many another horse, after she had made thousands of dollars for her owner, and after the zenith of her glory was waning, she was superseded by a more favorite acquisition as a winner, for the race course holds in store but a fleeting career, often as well for the man that follows it as for his horse.

Pony Girl was finally sold, and as she was too frail for ordinary all round work she went from pillar to post, until she finally fell into the hands of an itinerant showman who exhibited her at county fairs. After a very unprofitable season in Mansfield, the man pulled stakes and left. He probably had only money enough to take himself, and so left Pony Girl behind to browse around for a living as best she could. It can easily be imagined what kind of a living a fair ground and nearby field will furnish for an animal after an October fair.

When discovered half starved and covered with scurvy, she was a pitiable object, and was reported to the humane agent to dispose of the poor little creature as he thought best. He, at once, investigated the case and found it to be as reported. His first impression was to destroy her in order to get her out of her miserable condition. However, that is usually a last resort and he set about to see if he could find a suitable home for her. At this stage of his proceeding he thought of Miss Elizabeth Thornton, who was a true humanitarian, having a kind of private hospital for stray dogs and cats. On broaching the subject to her she delightfully consented to take charge of Pony Girl, to the great satisfaction of the humane agent, for he too, had more than a passing interest in the neglected little animal.

Miss Thornton has a dwelling house in the rear of her home, 196 North Franklin avenue, especially remodeled to suit the exclusive needs of her pet. She has a special attendant to take care of her little manure, under the instruction of a veterinarian, 30 bushels of corn, hay and other feed was in stock at this time.

After Pony Girl was definitely installed in her new home, her former owner unexpectedly returned and demanded possession of his property; but on the advice of attorneys that his rights were forfeited. Chapel, the former owner departed.

Miss Thornton employed Brainard & Woodruff, Cleveland veterinarians, to establish the true pedigree of Pony Girl, and is now definitely ascertained that Pony Girl is only a sort of stage name, and that the mares real name is Linwood Girl. Under the latter name she won thousands of dollars for her former owners, had her picture in the newspaper and got more fame than is ordinarily accorded to a sorrel with a white star between her mischievous eyes.

Several months ago Miss Thornton's pet trotted better than 2:29 over Mansfield streets, and twice upset the sleigh, tumbling its occupants into the snow. Like any race horse, the harder her driver pulls on the reins the faster Pony Girl goes, and it is only by slackening the reins that she slows down.

It is claimed that Miss Thornton was offered several hundred dollars for Pony Girl but says she would not part with her for any price.

Miss Thornton is known far and near for her many humanities, donates to every worthy cause, has eight dogs and ten common cats for pets, making a home for all strays.

She says "I have written my will that my pets will never want, stating that she has provided a legacy for the mare's maintenance and support."

STRONG MEN SOMETIMES TIRE EASILY

But Refuse to Believe That They Are Tired Out—Run-Down.

EVEN ATHLETES NEED TONIC

This Husky Chap Admits It, and Twice a Year Takes Pepto-Mangan, Red Blood Builder

He is tall (almost six feet), weighs 185, plays golf, works his own garden, and is stronger than most men. He is the picture of health, looks as vigorous as a football player.

But he is a bit anemic, gets tired too easily, is inclined to constipation, is more nervous than a normal man should be, and is subject to disfiguring pimples.

He told all this himself, and added: "Whenever I have the sense or the memory to take two or three bottles of Gude's Pepto-Mangan in the late fall and early spring, I am right as a trivet. The trouble is, I forget. If I hired a doctor only to remind me to take Pepto-Mangan twice a year, it would be worth hundreds of dollars to me."

Gude's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious diseases of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new vigor and ambition in those who have become pale, weak, and listless. Physicians recommend Gude's Pepto-Mangan. When you order, be sure the word "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.—Adv.

REPEAT ADVICE ABOUT SPRING BLOOD PURIFIER

Proves Many Serious Ailments Due to Poisons in System.

Says Nothing Better Than Sulphur, Cream of Tartar and Herb Extracts in Tablet Called "Sulphur Tablets."

The wisdom of ages placed in a little sugar coated tablet—Sulphur Tablets! Remember, grandma's remedy—sulphur and cream of tartar mixed in molasses—it was a nauseous dose, but it saved thousands of lives by purifying the blood in the spring. Thousands avoided rheumatism and serious fevers by taking it. Now, you can get the benefits by taking a little tablet regularly containing the blood purifying system regulating medicines that grandma relied on.

Constipation, inactive kidneys are overcome and catarrh, neuritis, rheumatic pain and many other "poison symptoms" vanish after a course of Sulphur Tablets. The best medicine for spring lethargy and thick, sluggish blood. Every package is guaranteed to satisfy or money back. 60c in sealed tubes of druggists everywhere. Be sure to get genuine Sulphur Tablets (not sulphur tablets.)

Tire Demonstration At Howard Beene's Saturday, April 3

One of the greatest factors in popularizing the motor car has been the vast improvement in motorcycle tires. In the olden days the tire question was about the biggest bugaboo that disturbed the motorist's peace of mind. If he started on a journey he was indeed fortunate if he ever finished it. His troubles were a fertile field for the comic supplements and many jokes were cracked at his expense.

All this is changed today. Tires are indefinitely more dependable now. But although tires are being built with a much higher factor of safety and dependability than ever before, and much greater mileage built into them at the factory, thousands of motorcycle riders are constantly discarding tires that have failed to reach their three score and ten, through no fault of the tires.

Millions of miles that were built into the tires failed of attainment last year through lack of the simplest repairs that could easily have been made by the rider himself.

So a national tire conservation movement has been inaugurated with the object of showing motorists everywhere methods of tire care that will add many miles to the performance of their tires.

Carrying out this idea, Howard Beene of Newark has arranged to have a tire expert from The Goodyear Tire and Rubber company assist in the observance of the National Day on April 3.

"There is no question that motorcycle riders of Newark and vicinity can get more miles from their tires," says Mr. Beene. "So we have secured this expert to come to our place to demonstrate the simple methods of tire care that will add wonderfully to tire mileage. We have not asked him to make a stock demonstration speech, but have arranged for him to give individual attention to every motorcycle owner that has a tire problem to be worked out."

5. Operator sees his work. "Foresight is better than hindsight."
6. Tractive power in front of work, operator behind it.

Exclusive Results:

1. No duplication of any work by horses.
2. A saving in labor.
3. Entire outfit turns short, backs and makes fence corners produce.
4. Ease of operation.
5. Better work.
6. Power used as horses are used.

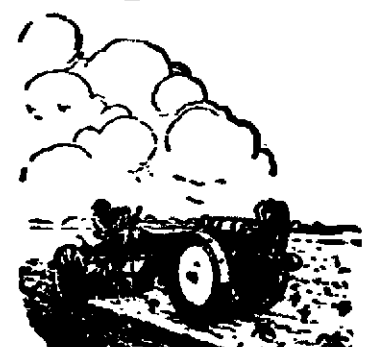

The Power of a Correct Principle

The principle of doing all field operations with one man sitting where he can watch his work is correct, or farming has always been done backward, and the operator would always have ridden or led his horses instead of driving them.

The Moline Universal Tractor places the power of one big horse where the horses stood—is driven just like horses are driven, from the seat of the implement, and hitched up to the implement just like horses are hitched.

NOTE—If desired you can use the "drag behind" or horse drawn implements you now have the same as with other types of tractors.

We have sold the Moline Universal Tractor over a limited territory around St. Louisville for the past six years, realizing the need of tractors on every farm, we have secured the exclusive sale of the Moline Universal Tractor for Morgan, Miller and Clay townships in Knox and have practically all of Licking county.

After very carefully investigating all makes of tractors as to their adaptability on the farm, we believe the Moline the only practical tractor for farm work. There is no other tractor on the market today which you can hitch to any implement and sit on the implement and operate the tractor satisfactorily except the Moline Universal.

By the use of our rear wheels which comes with each tractor, we have the same four-wheel outfit as other tractors, and if you choose, pull any implement behind, as they do.

We recommend and guarantee the Moline to do satisfactory work on your farm. If interested write or call us over Citizen's Phone, St. Louisville. We will be only too glad to call on you and explain more fully.

LOOK TO YOUR HEALTH AT FIRST SIGN OF DANGER

Is the Pertinent Advice of Redex Expert At Erman's Arcade Drug Store.

"The average person dislikes the thought of taking medicine as badly as a small school boy hates to have his hands and face washed before going to school," said the representative who is demonstrating Redex, the great natural tonic at Erman's Drug Store.

Continuing, the Redex representative said: "People allow themselves to become all run-down, and in a serious physical condition, before they begin to look around for something to remedy their ailments.

"When we become sick, the thing we need and need badly is the most natural tonic we can get. Human instinct tells us when we are physically unfit, almost the first warning given us is a listless, don't care, sort of feeling. We lack interest in the affairs of life and drag along in this manner until the time comes when it develops into something more serious, such as stomach trouble, everything we eat disagrees with us; the food which puts life into our bodies becomes sour, causing a bloated feeling and distress.

"We become subject to frequent headaches, complain of pains in the back caused by weak kidneys and one of the most annoying symptoms which is constipation. When the bowels become clogged it retains poisonous matter in the system, which in itself is the sign of approaching danger. We forget nature and look to human things to save us.

"Redex through its proper administration of roots, herbs, berries and berries, takes us back to nature as near as it is possible for human intelligence to do so, by assisting to restore normal activity of the vital organs."

Mrs. J. R. Smith, living at No. 11

South Cedar street, Newark, enthusiastic over her experience with Redex.

"Redex is a splendid medicine and helped me wonderfully. I am feeling better now than I have for the past two years, and I have tried about everything that I could think of. I am stronger and better able to do my housework than I have been for years. My chief troubles have been with my stomach and severe rheumatic pains in my arm and shoulder; sometimes my fingers would become very stiff and sore. Nothing in the way of food tasted good or seemed to agree with me. I have been so weak and draggy that I could hardly stand on my feet, let alone work. Since I started taking Redex several days ago, I feel like a different woman. I did my own washing this week, and my housework has been a pleasure to me. I am stronger, eat well, with no bad after effects, am less nervous, and am better in every way than I have been for a long while back. My rheumatic pains bother me a trifle yet, but are far less severe than they were. If Redex will continue to help me as it has done in the past few days, I shall certainly be very grateful.

"I am going to continue taking Redex as long as it has proven to be the best remedy I have ever tried."

Redex is the new tonic and invigorant, is being specially introduced at Erman's Arcade Drug Store, Newark, and can be had at Evans' Drug Store, McKranz, and all leading druggists here.

It can also be obtained in Granville at Gilman's Drug Store, Alexandria, C. M. Gilmore, Hobson, Hobson Drug Store, Richardson's Drug Store, Utica, Ohio.

QUAKER QUIPS.

(Philadelphia Record)

"The man who likes to mingle with the crowd should never aspire to the pinnacle of fame.

"Of course, women are changeable. Many a one will even change her mind about changing her name.

"Beauty is only skin deep. A girl's freckles are not as pretty as her blouses, but they are more genuine.

"The critic hanging around at the portals of heaven, is tempted to push in the doorkeeper. I'm sorry," said the celestial guardian blocking the way. "but the free list is entirely suspended during this engagement."

"He was paying the doctor's bill, hope you have profited by my advice

and treatment," said the doctor. "Well, speaking of profit, I'll get 50¢ with you on it," suggested the patient.

"Muggins—Queer a girl can never hit anything she aims at." Buggins—"That isn't altogether true. Haven't you ever watched a girl throwing bouquets at herself?"

"We should avoid even the appearance of evil," said the good deacon. "Then tell my maiden aunt to discard her corker curls," retorted the unregenerate backslider.

"There's no place like home. Still, various interpretations may be placed on this old saying, as the returning tourist from Cuba will tell you.

"Boys will be boys. At the same time for one kid who has a naturally sunny disposition there are a hundred who ought to get tanned."

SHOP IN THE MORNING

Crowds will not be so great and garments purchased before noon will be altered in time for Easter wear.

Suits, Coats, Dresses and Waists

UNDERPRICED FOR THOSE WHO SHOP TOMORROW

Values That Nearly Seem Impossible

WE'VE told you before about the special garments our buyer bought in New York from over stocked manufacturers. Hundreds of women took advantage of this fortunate purchase of ours, so naturally assortments were beginning to dwindle. In order to offer a complete display for tomorrow's shoppers, we've taken many garments from our regular stocks and reduced them in proportion to the ones that were recently purchased at an average discount of 25%. This gives you the opportunity of choosing from the season's most popular styles at prices that positively cannot be duplicated elsewhere.

GOOD FRIDAY AT ST. FRANCIS DE SALES.
The solemnities of Good Friday were duly celebrated at St. Francis de Sales this morning. All day Thursday the Altar on the Gospel side which was decorated with flowers and hundreds of lights and made so as to represent the glorious Sepulchre of the dead Christ was attended by throngs of worshippers until nine p.m. and again this morning from seven until ten. The adoration of the cross was carried out at the Mass of the Presanctified and the passion according to the Gospel of St. John was read during the Mass. This afternoon the Stations of the Cross will begin at four sun time at which the narrative of the four gospels will be given in fourteen meditations which will bring vividly before the mind of the faithful the trial and sufferings of the God-Man. If there be anything that should appeal to believers in the reality of Christ and his mission it surely ought to be the price He paid for the salvation of the world. Why Good Friday is not a national Holy Day set apart for meditation and penance has always been a mystery to devout Christians.

We all whether Christians or otherwise recognize that we are living under a civilization established through the preaching and example of the Son of God as Christians believe Him to have been, and yet we pay no more attention to this His greatest day than we do to any other day of the year showing thereby that we are apparently either indifferent or utterly unbelieving in this regard. Our courts are open on the day of His great trial and our schools are as noisy before and after as on other days. Do we really believe that He was what He claimed to be by word and miracle? Do we really believe Christ to be Divine? Was He Truly the Son of God for you and me? If we believe this we do not manifest our belief and neither does our country. If we except the few hidden souls who worship apart from the throng in the quiet aisles of their churches, what signs do we see that this great nation believes the great Tragedy that was enacted on Calvary through which we pretend to believe the race of Adam was redeemed? I fear we are not sincere Christians and that most of our ostensible piety and good works are pharisaical and worthless. We are flooded with literature about how to reconstruct society but we have no regard for Him Who alone has it in His power to save an eternity. If a stranger from what we call a heathen land were to come here on this day and ask why we do not observe it as we should if we believe in Christ, what answer could we make? Would he not wonder the best man possible for her purposes be rich or poor. Uncle Sam will not be so prodigal. His representative in London is likely spending his entire salary for house rent, and for entertainment, he dips down into his own pocket. The call is that our ambassador in London can be only a rich man. Which is the more democratic idea?—Boston Post.

Russian Painters Thriving.
 "Art," so far as the production of pictures is concerned, is said to have had a great boom in bolshevist Russia owing to the fact that the government pays a liberal amount for all works approved by official experts.
 The whole domain of art has been placed under the control of a council of seven members, four of whom are apostles of futurism. Artists' earnings have been increased through a rule established by the council under which all pictures that pass the judges are to be paid for at the uniform rate of 7,000 rubles each.
 Whether the artist has devoted months of assiduous labor to a picture or whether it is a dab which has taken a few hours to paint, the recompense is the same. With such encouragement the number of artists in Russia is increasing rapidly.

In 2000 Counties This Month

*The Forces of the Church
of Christ Will Gather To
Face the Facts.*

IN 2000 counties in the United States the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

* The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a

Nation Wide Cooperative Campaign

Each of the thirty denominations has its own "Forward Movement" organized and officered. The Interchurch World Movement is the clearing house for all of these.

It is the agency which the churches have created to avoid duplication, to foster cooperation and make sure that every man and dollar render the utmost service possible.

The month of April will be devoted to making the facts of the survey known to America; in the week of April 25th-May 2nd, will come a united simultaneous financial campaign.

Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the

Why Our Candy Is BEST

The Testimony of Others Is
Substantial Proof

The Olympia Confectionery.

To Whom It May Concern:

"WHY THEIR CANDY IS BEST"

After a visit to the Olympia's candy kitchen one is convinced that their candy could not be surpassed anywhere.

Their candy is skillfully made and every mode of cleanliness is used in making their candy, as well as cleanliness in handling.

All requirements pertaining to their candy making are modern.

They extend a cordial invitation to the public, to visit their candy kitchen, where it is very interesting to observe the making of the most delicious candy.

One could not refuse their candy after seeing it pass through the immaculate process of making.

After you have once bought of them no other place can substitute for you.

Why not go where you are treated with courtesy, friendliness and where you feel welcome.

Olympia's candies are surely fine.

"None better" so there I will go for mine.

When to the theater you have been,

Just remember Olympia's den. (Pronounced din)

Their candy is the best that can be bought.

Of this fact some people will have to be taught.

But I shall tell my friends and they shall see

And it won't be long till they will agree.

When buying, why not buy the best.

Whether it is for yourself or for some of the rest.

To tell all about the confectionery that is near

Would take too long but it is known by the products they sell here
